

You should pay attention to me because I pay your salary and you should stop being a tool of repression.

Sinclair Broadcasting is forcing their stations to air an anti-Kerry documentary. They are ignoring the principle of equal time for all opinions. This is a clear example of the repression of Big Media.

Sinclair uses the public airwaves free of charge, and is obligated by law to act in the public interest. But when large companies control the airwaves, we get only what's good for the bottom line and nothing of what we need for our democracy. Instead of something produced at "News Central" far away, it's more important that we see real people from our own communities and more substantive news about issues that matter.

The sinister men at Sinclair are showing you why you need to strengthen media ownership rules, not weaken them. They show why your license renewal process needs to involve more than a returned postcard. So why aren't you changing this?

Thank you.
